Dr Wehber	W	Full Share. Wants EKG on structural days	Full Share (*)	Full Share (**)	Full Share (**)	Full Share (**)	Full Share (**)			Full Share	Full Share	Yes			

* Attendings with less TEE will receive more ECHO-OUTPT and LASTNIGHTTECHO. LASTNIGHTTECHO counts as 1/2 an ECHO shift.

** Satellite doctors are entitled to a full share of call, but sometimes choose less than that because they have to drive in. They are encouraged to pick their own reading days or let the scheduling team know that they can be flexible with the dates

*** Non-interventionalists will have combined PET and NUC when possible
